EDUCATION AND QUALIFICATION

1985-1992: M.D; Doctorate of MEDICINE from Faculty of Medicine at Iran University of Medical Sciences, Tehran, Iran. Conducted research and presented a thesis entitled “pectus excavatum and pectus in carinatum” under the supervision of Prof. A. Shirinzadeh.

1998-2001 Ph.D in Medical Microbiology, with a thesis entitled “Detection of *Helicobacter pylori* in gastric biopsy by molecular assay and the comparison with RUT and Histopathology” under the supervision of Prof. A. Zargarizadeh and Prof F. Megraud. In this study a novel approach was developed a new specific assay for *H.pylori* detection. *H.pylori* is a small, Gram negative

bacilli. *H.pylori* infection has a high prevalence in Iran (>80%). It plays a key role in etiological agent of chronic gastritis, peptic ulcer, gastric cancer and lymphoma. A variety of invasive and non-invasive methods have been described for detection. Thus diagnose and treatment of *H.pylori* infection is very important. We designed a PCR which encoding gene Urease-C. In our study PCR assay had 98% sensitivity and 93% specificity. Therefore, this study established a sensitive and specific methodology for accurate detection of *H.pylori* infection without need for bacterial culture.

2001-2002 Awarded a scholarship in order to study Ph.D from 2001-2002, Bordeaux, France.

Foreign Languages

English and French

EMPLOYMENT

2002 - Present: Prof. of Medical Microbiology, Full-time junior lecturer at the Faculty of Medicine, Tabriz University of Medical Sciences.

Membership

1. Membership of Cardiovascular Research Center, Tabriz University of Medical Sciences, Tabriz, Iran.
2. Membership of Applied Drug Research Center, Tabriz University of Medical Sciences, Tabriz, Iran.
3. Membership of Iranian Microbiological Association.

PUBLICATIONS

I. Book

1. **Ghotaslou R**. Laboratory of Microbiology, publisher Akhtar, 392 p (Farsi).
