

Kamaledin Hassanzadeh

Associate Professor of Urology

Experience

Urology Department In Sina Hospital, Tabriz, Iran

Urology Department In Imam Reza Hospital Tabriz, Iran

8 years Chief of Urology in Sina Hospital Tabriz, Iran

East Azerbaijan Province Medical committee member, Iran

Fields of Interest

Medical Philosophy and Ethics

Sports

Art and Literature

Urological Cancers

Current Position

Associate Professor of The Urology Department, Sina Hospital, Tabriz, Iran

Member of the Uro-Oncology Society of Iran

Member of the Iranian Urology Society

Member of the European Urology Society

Member of SIU

General Skills

Information Technology

Education

Specialized Skills

- Modern Surgical Technics for Neo-Bladder
- Prostate Cancer Surgery
- Partial Kidney Cancer Nephrectomy
- Routine prostatectomy in 4 different methods
- Bladder surgery in the Struder Method and a self designed method
- Partial Nephrectomy in patients with both and solitary kidneys

Mentorship and Teaching

Training Externs Since 1998

Training Residents since 1998

Training Gynecology Residents Since 2003

Fellowship training programs for female Uro-Oncology since 2003

Teaching Urology to Nursery and Paramedical and Midwifery Students

English 80%

Arabic 60%

Russian 30%

German 20%

French 20%

Publications

Translation of Smiths Urology

Translation of Urology Secrets

Translation of the book of Sexual Dysfunction

Presentations

Lectures in 20 annual Urology congresses in Tehran, Iran

Lectures in 5 annual uro-oncology congresses in Iran

Execution of more than 20 congresses in teaching urology

Supervisor and Advisor of Thesis

- 1-Recovery of renal function after operation for relief of unilateral obstruction of upper urinary tract.1998
- 2-Improvement in Semen parameters after varicocelelectomy in various ages.2000
- 3-Comparison of preoperative prostate volume determination by transabdominal ultrasonography with postoperative volume measurements.2001
- 4-Stonefree rate after eswl in ureteral stones.2001
- 5-Effect of oral pentoxifyllin on spermogram.2002
- 6- Disorders of sperm morphology in oligospermic persons.2003
- 7-Various types of impotency in dialytic patients. 2003
- 8-Frequency of upper urinary tract disorders with B.P.H -2004
- 8-RENAL AND PERIRENAL Hematoma after lithotripsy.2004
- 9-Correlation of height and weight with degree of Varicocele in 18-30 years age group.2004
- 10-Nonobstructive symptoms in patients with prostate volume. 2006
- 11-Comparison between Eswl and tul for removal of ureteral stones based on location and size of stones.2006
- 12-Characteristics of premature ejaculation in infertile men.2006
- 13-Relation between histologic types of BPH and clinical symptoms .2007
- 14-relationship between success of Eswl and Various BMI groups. 2008
- 15-Effectiveness of intravenous lidocaine versus intravenous morphine for patients with renal colic in the emergency department of imam reza hospital. 2010
- 16-evaluation of results of varicocelelectomy in sina hospital during the past 10 years. 2011
- 17- comparison of treatment of monosymptomatic nocturnal enuresis with combination Desmopressin and tolterodine versus Desmopressin alone. 2013
- 18- Effect of the number and size of veins ligated at left sided microsurgical inguinal varicocelelectomy on semen analysis outcomes. 2014
- 19-Assessing the results of open Radical Retropubic prostatectomy using High Anterior Release of the levator fascia method. 2016
- 20-Evaluation of ischemic cardiac function class and sexual dysfunction after radical prostatectomy with nerve preservation for prostatic cancer. 2018
- 21-Effect of kidney pedicle clamping on kidney function after partial nephrectomy. 2018
- 22-Evaluation of effect of Varicocele on sperm survival invitro.2019
- 23-Evaluation of match rate prostate carcinoma grading in transrectal biopsy specimen with radical prostatectomy specimen in prostate carcinoma patients.
- 24- The evaluation of concepts and feeling of patients –prostatic adenocarcinoma who are candidates for radical prostatectomy before surgery: First part of longitudinal qualitative study.2021
- 25- The evaluation of concepts and feeling of patients with prostatic adenocarcinoma who are candidates for radical prostatectomy after surgery: second part of longitudinal qualitative study 2021
- 26-Match rate prostate carcinoma grading in transrectal biopsy specimen TRUS(gleason 3+3=6) With palpable nodule in digital rectal examination with radical prostatectomy specimen in prostate carcinoma patients.2022
