

Parvin Bastani

Associate Professor of Obstetrics and Gynecology

Tabriz University of Medical Sciences, Tabriz, Iran

Profile

Gender: Female

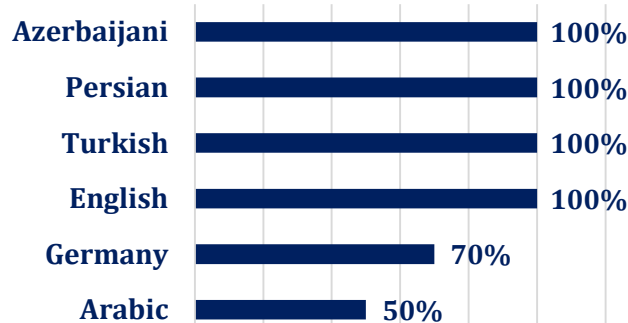

Date of Birth: 6. July.1969

Marital Status: Married

Country of Origin: Iran

Present Nationality: Iranian

Language Skills

Research Profiles ID

Researcher ID: M-3660-2017

Scopus ID: 12807505700

ORCID ID: 0000-0002-7103-0683

Research Interest

- Urogynecology
- Female Incontinence
- Sexual Problems
- Pelvic Floor Sonography

Education

1994 General Medicine, Faculty of Medicine, Tabriz University of Medical Sciences, Tabriz, Iran.

1998 Obstetrics and Gynecology, Faculty of Medicine, Tabriz University of Medical Sciences, Tabriz, Iran.

1998 Board Certify in Obstetrics and Gynecology.

2008 Fellowship in urogynecology and pelvic reconstructive surgery: Medical faculty of Ludwig Maximilian university-munchen, Germany.

Contact

Address: Department of Obstetrics and Gynecology, Faculty of Medicine, Alzahra Hospital, Tabriz University of Medical Sciences, Golgasht Street, Tabriz, Iran.

Tel: +984135539161
+989143110142

Email: bastani.parvin@yahoo.com

Administrative Experiences

- Educational Affair of Taleghani Teaching Hospital, Tabriz University of Medical Sciences, Tabriz, Iran.
- Head of Taleghani Teaching Hospital, Tabriz University of Medical Sciences, Tabriz, Iran.
- Head of Alzahra Teaching Hospital, Tabriz University of Medical Sciences, Tabriz, Iran.

General & Specialized Skills

- Pelvic reconstructive surgery
- Mullerian anomalies surgery
- Pelvic floor sonography
- Project Management
- Problem Solving
- Team Working
- IT skills: (Internet, Windows, Microsoft Office, Minitab, SPSS Data collection, manipulation, and analysis)

Membership of Learned Societies

- The National Association of Iranian Obstetrics and Gynecology
- Member of international continence society
- Member of Women's Health and Reproduction research center

Supervisor & Advisor of Thesis

1. Comparison of results of preventive and non-preventive surgery for urinary incontinence in women with advanced pelvic organ prolapse. **(Supervisor)**
2. The effect of demographic factors on the outcome of twin pregnancies. **(Supervisor)**
3. Evaluation of risk factors for preeclampsia in pregnant women second and older. **(Supervisor)**
4. Comparison of amniotic fluid index and the size of the deepest amniotic fluid sac in the ability to predict the outcome of prolonged pregnancies. **(Supervisor)**
5. Evaluation of the relationship between maternal age and midwifery interventions (cesarean section and vacuum) in women of the first pregnancy. **(Supervisor)**
6. Evaluation of the relationship between the duration of contact with semen and the incidence of preeclampsia in women with the first pregnancy. **(Supervisor)**
7. Evaluation of the relationship between fetal sex and gestational age in pregnancies over 37 weeks and its complications. **(Supervisor)**
8. Investigating the relationship between maternal parity and pregnancy outcome. **(Supervisor)**
9. Comparison of maternal outcomes of neonatal head pressure with head stretching in cesarean delivery with pelvic embryos. **(Supervisor)**

10. Comparison of the results of preventive and non-preventive surgery for urinary incontinence in women with advanced pelvic organ prolapse. **(Supervisor)**
11. The effect of pelvic floor physical therapy on sexual function and strength and endurance of pelvic floor muscles in women with painful intercourse. **(Supervisor)**
12. Localization of pelvic floor prolapse guideline in Iranian adult women. **(Supervisor)**
13. The effect of using pessary in the treatment of symptoms associated with pelvic organ prolapse. **(Supervisor)**
14. Results of pelvic floor prolapse surgery (anterior colporrhaphy with mesh and sacrospinus suspension) and abdominal method (sacropexy and hysteropexy). **(Supervisor)**
15. Comparison of sexual function before and after the use of pessary in women with pelvic floor disorders. **(Supervisor)**
16. Evaluating the value of ultrasound in predicting success in induction of labor and comparing it with B-Shop score. **(Supervisor)**
17. Determination of perineal length in Noli Par women referred to Al-Zahra and Taleghani hospitals in Tabriz. **(Supervisor)**
18. Evaluation of long-term consequences of using synthetic meshes in the treatment of women with genital prolapse. **(Supervisor)**
19. Comparison of the therapeutic effect of metformin and simvastatin in the treatment of polycystic ovary syndrome. **(Advisor)**

20. Comparison of maternal and neonatal outcomes in labor with vacuum and cesarean section in stopping the second stage of labor. **(Advisor)**
21. Comparison of the effect of pelvic floor physiotherapy, sonar and corrective surgery in correcting vaginal noise in patients with pelvic floor disorders. **(Advisor)**
22. Comparison of pain relief of intravenous acetaminophen, intramuscular tramadol and diclofenac suppository in pain control after cesarean section. **(Advisor)**
23. Frequency, risk factors for pelvic floor disorders, irritable bladder syndrome and its relationship with sexual function in postmenopausal women. **(Advisor)**
24. Evaluation of consumption pattern and prescription of antibiotic prophylaxis regimen in patients undergoing gynecological surgery in Alzahra Hospital, Tabriz in 2017. **(Advisor)**
25. Frequency of history of polycystic ovary syndrome in preeclamptic patients. **(Advisor)**
26. Comparison of the effectiveness and side effects of transcervical catheter and vaginal misoprostol catheter on cervical preparation. **(Advisor)**

Research Projects

1. Efficiency of serum creatinekinase measurement in differentiation between ruptured and unruptured ectopic pregnancy.
2. Study on relation between length of semen exposure and incidence rate of pre-eclampsia in primigravid women.
3. The effect of supplemental vitamin E on pregnancy outcome.
4. Comparison efficiency of urinary protein: creatinine ratio to 24 hour urine protein measurements in pre-eclamptic women.

Publications

A) Books

No.	Title	Year
1	Principles of family planning (Persian translation and accumulation)	
2	Pelvic organ prolapse and urinary incontinence in women (In Persian)	2014

C) Conference Presentations

1. Study of relation between feeling of fetal movement decreasing and Biophysical profile results in women with term pregnancy. 8th International congress of obs & Gyn. 4-8 Oct 2003, Tehran, Iran.
2. Comparison of maternal and fetal complication of conservative management with delivery of severe pre-eclamptic women with preterm fetus. 8th international congress of obs and gyn. 4-8 Oct 2003, Tehran, Iran.

3. Study on demographic factors influencing pregnancy outcome in twin gestations. 9th international congress of obs and gyn. 21-25 Nov 2004, Tehran, Iran.
4. A survey of prevalence of asymptomatic bacteriuria in preterm labor. 9th international congress of obs and gyn. 21-25 Nov 2004, Tehran, Iran.
5. Relation between gender and preterm birth. 6th international Congress on obstetrics and Gynecology, 25-29 Nov 2005-Tehran, Iran.
6. Advanced abdominal pregnancy. (Case report). 6th international congress on obstetrics and Gynecology, 25-29 Nov 2005-Tehran, Iran.
7. A woman with Molar pregnancy and a live fetus. 9th international congress of obs and Gyn. 21-25 Nov 2004. Tehran, Iran.
8. Survey of Correlation between maternal age and obstetric. Interventions in primigravide women. 10th international Congress of obs and Gyn. 18-22 Nov 2006. Tehran, Iran.
9. Study on prevalence of Irritable Bowel syndrome in patients with preterm labor. 10th international congress of Gyn and obs. 18-22 Nov 2006. Tehran, Iran.
10. Screening of gestational diabetes rate in pregnant women in 24-28 weeks of pregnancy. 10th international congress of Gyn and obs. 18-22 Nov 2006. Tehran, Iran.
11. Iron Deficiency anemia and preterm labor .10th international Congress of Gyn and obs. 18-22 Nov 2006. Tehran, Iran.
12. Study on patients' survival after radical hysterectomy. 2th international congress of oncology. 19-22 may 2004. Isfahan, Iran.
