

## **CURRICULUM VITAE**

**Ali Fakhari, M. D.**

**Date of Birth:** 19-06-1967

**Location of Birth:** Iran, Tabriz

**Current Function:** Professor of Psychiatry, Psychiatric Department, Razi Educational and Treatment Center, Tabriz University of Medical Sciences

Director of Research Center of Psychiatry and Behavioral Sciences, Tabriz University of Medical Sciences, Tabriz, Iran.

### **Postal Address:**

Razi Educational and Treatment Center

Elgholi Road, Po Box

Tabriz/East Azerbaijan-Iran

Phone: (+98) 4133804486-90

Fax: (+98) 4133803353

E-mail: [a\\_fakhari@tbzmed.ac.ir](mailto:a_fakhari@tbzmed.ac.ir) , [a\\_fakhari@yahoo.com](mailto:a_fakhari@yahoo.com)

### **Education:**

**Tabriz University of Medical Sciences;** Basic Science; Medical Technology

**Tabriz Hospital Center School of Medicine;** Doctor of Medicine

### **Memberships in Professional and Honorary Societies:**

-Scientific Psychiatric Association of East Azerbaijan

-Medical Education Association

-Iranian Task Force of Cultural Psychiatric Regional Axis

-Iranian General Medicine Board

-Psychiatric Department of Tabriz University of Medical Sciences

-Medical Education Department of Tabriz University of Medical Sciences

### **Positions at Academic Institutions**

-2012-Now: Director of Research Center of Psychiatry and Behavioral Sciences, Tabriz University of Medical Sciences, Tabriz, Iran.

-2008-2018: Educational Assistant of Razi Educational and Treatment Center, Tabriz University of Medical Sciences, Tabriz, Iran

-2014-2015: Director of Management Center of Risk Factors for Common Chronic Diseases

-2006-2012: Director of Psychiatric Research Team of Tabriz University of Medical Sciences, Tabriz, Iran.

-2003-2007: Director of Continuing Education Development Center of East Azerbaijan, Iran

### **Research Projects:**

1- Assessment of BMI changes in out patients treatments with psychotropic medications and their healthy family comparisons for one year.

2- The survey of DRD4 Gene Polymorphisms in children with Attention Deficit Hyperactivity Disorder.

3- The Comparison of Electroencephalography Coherence in Methamphetamine Users and Healthy People.

4- The frequency of phobia situations in the patients with agoraphobia.

- 5- The Comparison factors associated with initial treatment response to fluoxetine in patients with OCD.
- 6- Study of correlation between personality traits and substance abuse in high school students of Tabriz.
- 7- Reliability and Validity of standardised assessment of personality disorder-abbreviated scale (SAPAS) to Persian.
- 8- Reliability and Validity of HITS Tool for Intimate Partner Violence Screening.
- 9- Designing a mental health accreditation model in family physician program in East Azerbaijan
- 10- The survey of changing in subgroups of students in terms of risk-taking behaviors during first year of college and its predictors.
- 11- Knowledge and attitude of preschools teachers of children with attention deficit hyperactivity disorder toward the illness.
- 12- The Efficacy of Complementary Use of Memantine in Treatment of Schizophrenia with Chronic Course.
- 13- Family features, stress coping styles and life events in individuals suicide attempter
- 14- The comparison of attentional biases in patients with generalized anxiety disorders, obsessive-compulsive disorder, panic disorder, depression disorder and normal individuals.
- 15- Efficacy mood induction on anterior asymmetry and its relation to behavioral approach and inhibition systems.
- 16- Enhancement of the antidepressant action of fluoxetine by pyridoxine ,folic acid , cobalamine in patients with major depression.
- 17- Comparison of short-term memory Quotient between smoker and non-smoker men.
- 18- The survey of wife abuse and its association with mental health and self –esteem between women in Tabriz, 2009.
- 19- The study of factorial structure of Beck Depression Inventory (BDI-II)
- 20- A comparative study on efficiency of ‘traditional clinical interview’ versus ‘PHQ-9 questionnaire’ in Diagnosing depressive disorder in primary care centers.
- 21- The relationship between religious believes and perfectionism in patients with OCD
- 22- The analytic correlation of family violence and general health of female high school students in Tabriz .
- 23- The evaluation of mental health index of gifted high school students in comparison with public schools students.
- 24- Qualitative study of violence in domestic environment: factors ,processes and consequences.
- 25- survey of relation between maternal age and IQ score and physical size in Tabriz male students .
- 26- The sociological analysis of effective factors on suicide commitment(A qualitative study in Tabriz in 2008).
- 27- Retrospective Epidemiologic Study of Severe Psychiatric Disorders based on Inpatient Records in Razi Hospital in Tabriz – 2016
- 28- Comparison of mental health in breastfeeding and non breastfeeding mothers
- 29- study of the effects of breastfeeding on mothers sleep quality
- 30- The therapeutic effect of Electroconvulsive therapy (ECT) in obsessive compulsive disorder patients(OCD), a quasi experimental study
- 31- The impact of early marriage on depression and suicidal behaviors: a systematic review and meta-analysis
- 32- Validity and reliability of Turkish (Azeri) version of Geriatric Depression Scale (GDS)
- 33- Contact tracing of COVID 19 patents with persons and probable sources, and to determine characteristics and key symptoms of them: a matched case-control study
- 34- reliability and validity of farsi version for intimate partner violence screening tool (HITS)

- 35- Crisis Management in Psychiatric Wards at Corona Outbreaks: A Participatory Action Research Study
- 36- Developing a comprehensive surveillance system for COVID 19 among Iranian health system
- 37- The Relationship between Cognitive Functions and Universities entrance exam rank and Academic Achievement in Tabriz University Students
- 38- Study of the Stress of thesis defense meeting on cognitive functions and salivary cortisol changes in medical student
- 39- Designing and evaluation of validity of Screening questionnaire of Common Psychiatric disorders in primary care system
- 40- Quality assessment and rightness of mental health services in primary health care according to SIB electronic system in East Azerbaijan province
- 41- Investigating the Relationship between Demographic Characteristics and Type of Crime with Psychopathic Personality Disorder in Mahabad Prisoners
- 42- Development of nanocomposite biocompatible immunosensor for the detection of endocannabinoid agonists for use in the detection of psychosomatic diseases
- 43- Development of cannabinoid nanocomposite-based biosensors for identification of effective compounds toward the treatment of psychiatry disorders
- 44- Efficacy of Self monitoring Training ‘on Relapse in Bipolar Disorder type I
- 45- Investigates the Effectiveness of Body Intelligence Training on the Symptoms of Premenstrual Syndrome in : Women with Mixed Models
- 46- Investigation of the alterations in depression symptoms and EEG caused by the phenomenon antidepressant effects of acute sleep deprivation in patients with major depression
- 47- effects of type of domestic violence on women’s health living in Tabriz county 2016
- 48- Comparison FAAH gene rs2295633 polymorphism in children with ADHD with healthy children
- 49- Determining prevalence of domestic violence against women in city of Tabriz and the role of demographic factors
- 50- prevalence and types of Intimate Partner Violence against married women admitted to Sina hospital for attempted suicide during 2015-2016
- 51- The epidemiological survey and determine the prevalence of psychiatric disorders in the employees cohort at Tabriz University of Medical sciences
- 52- the study of breastfeeding effects on mothers sleep quality
- 53- study of mental health in aged population of Tabriz
- 54- Review of systematic reviews for developing a suicide prevention program in the health system
- 55- The role of endocannabinoid system in cognitive impairments and psychosis like symptoms induced by sleep deprivation in rat

**Principal Investigator:**

**Institutional Principal Investigator:**

**BIBLIOGRAPHY:**

**Book, Booklet**

- Mental Health for High School Students, Main Editor Doctor Ali Fakhari, with Assistant of Mehdi Tabatabaei, Editor Doctor Roya Dolatkah. ISBN: 964-06-5435-3 ,Van Agency ,2004.
- Anxiety Disorder, Chapter

**Publication and Academic Results**

About 50 English and 35 Persian Published Article, 30 Abstract Presentations in Scientific and International Congress, H-index: 10

(<https://scholar.google.com/citations?user=5xGGVBsAAAAJ&hl=en>)
