Thesis

Degree	Title
resident	Determination of adequacy of analgesia and satisfaction of vaginal delivery women with persistent intravenous analgesia with remifentanil infusion and comparing it with epidural analgesia
resident	comparison of intravenous administration of ondansetron versus ephedrine for prevention of spinal anesthesia-induced hypotension in caesarean section
resident	Comparison of Premedication with Oral Clonidine and Infusion of Dexmedetomidin on Perioperative Hemodynamic Responses and Analgesic requirements Post Gynecologic Laparoscopic Surgeries
resident	The effect of preoperative intravenous ondansetron for prevention of postoperative shivering in patients undergoing gynecologic surgeries with remifentanil-propofol anesthesia

resident	Evaluation of combined dexamethasone-ondansetrone effect in the prevention of nausea and vomiting after outpatient gynecological diagnostic laparoscopy
resident	the effect of prophylactic administration of intravenous Ondansetron for control of shivering during and after spinal anesthesia for cesarean section
resident	Evaluation of the effect of perioperative intravenous infusion of lidocaine in postoperative pain management after gynecologic laparoscopy
