

Curriculum vitae (C.V.)

Personal Data

First name and Surname: Fatemeh Yeganeh-Sefidan

Nationality and Birthplace: Iranian, Tabriz

Gender: Female

Degree: Ph.D, Medical Bacteriology

Tel/Fax: 041-33364661

Email: ftm.yeganeh@yahoo.com

Education

B.Sc	Tabriz University	Biology
M.Sc	Tabriz University of Medical Sciences	Medical Microbiology
Ph.D	Tabriz University of Medical Sciences	Medical Bacteriology

Dissertation

M.Sc: Isolation of *Legionella pneumophila* in hospitals water supply by Culture and PCR, Tabriz, Iran. (Score: 20)

Ph.D: Investigation of aminoglycoside modifying enzymes and 16S rRNA methylase from clinical isolates *Enterobacteriaceae* from Tabriz and Uromia at 1394 year. (Score: 20)

Abstracts Presented in Congress

1. **Yeganeh Sefidan F**, Hajizadeh M, Soroush MH, Safayean F, Mir Karimi SF, Tabatabaei Z and Asghari B. Determination of antibiotic resistance in Gram-negative bacilli isolated from respiratory secretions of hospitalized patients in Emam Reza hospital, Tabriz, The First Iranian International Congress of Medical Bacteriology, Tabriz, Iran, 5-8 September 2011.
2. **Yeganeh Sefidan F**, Ghotaslou R, Ahangarzadeh Rezaee M and Mohammadzadeh-Asl Y. Tow most important mechanisms of resistance to aminoglycosides among *Enterobacteriaceae* isolates, 5th Iranian International Congress of Medical Bacteriology, Maragheh, Iran, 15-17 August 2018.
3. Mohammadzadeh-Asl Y, Ghotaslou R, Soroush MH and **Yeganeh Sefidan F**. Prevalence, clinical manifestations and seasonality of pertussis in Tabriz, Iran, 5th Iranian International Congress of Medical Bacteriology, Maragheh, Iran, 15-17 August 2018.

Partnership in Congress

1. The First Iranian International Congress of Medical Bacteriology, Tabriz, Iran, September 5-8, 2011.
2. The Fifth Iranian International Congress of Medical Bacteriology, Maragheh, Iran, 15-17 August 2018.
3. The 4th International & 9th National Congress on Quality Improvement in Clinical Laboratories, Tehran, Iran, April 20-23, 2011.
4. Seminar on Immunology; Diagnosis and Treatment of Allergic Diseases, Tabriz, Iran, April 28-29, 2011.
5. 19th Iranian Congress on Infectious Diseases and Tropical Medicine, Tehran, Iran, December 25-29, 2010.

Presentations

The Fifth Iranian International Congress of Medical Bacteriology, Maragheh, Iran, 15-17 August 2018.

Workshops Attended

1. Workshop (Theoretical-Practical) Real Time PCR, Tabriz, Iran, May 17, 2012.
2. Workshop of Statistical Analysis of Data with SPSS Software, Tabriz, Iran, May 30, 2018.
3. Workshop of Ethics in Laboratory Research. Tabriz, Iran, March 3, 2019.
4. Workshop of Publication Ethics. Tabriz, Iran, July 10, 2019.
5. Workshop of Ethics in Animal Experimentation. Tabriz, Iran, August 7, 2019.

Thesis / Project co-worker

1. Study on combination of beta-lactam, macrolide and aminoglycoside antibiotics against *Pseudomonas aeruginosa* biofilm in invitro. [Infectious and Tropical Diseases Research Centre, Tabriz University of Medical Sciences, Tabriz, Iran]
2. Determination of the fosfomycin resistance frequency in clinical Enterobacteriaceae isolates in hospitals of children, Asad Abadi, Imam Reza, Tabriz, Iran during 2018 [Immunology Research Center, Tabriz University of Medical Sciences, Tabriz, Iran]
3. Frequency of *Staphylococcus aureus* alpha hemolysin and fibronectin binding protein and collagen binding protein in blood cultures and evaluation of antimicrobial susceptibility patterns in Tabriz 2018. [Immunology Research Center, Tabriz University of Medical Sciences, Tabriz, Iran]
4. Frequency of superantigens and attachment factors of *Staphylococcus aureus* in clinical isolates and nasal colonizer in the same patients and comparison of the isolates in Tabriz, 1397. [Immunology Research Center, Tabriz University of Medical Sciences, Tabriz, Iran]
5. Antimicrobial effect of nano Calcium Hydroxide on the *Enterococcus faecalis*: biofilm at different developmental stage. [Dental and Periodontal Research Center, Tabriz University of Medical Sciences, Tabriz, Iran]
6. Antimicrobial effect of different concentration of simvastatin and triple antibiotic paste on the *Enterococcus faecalis* biofilm at the different developmental stage. [Dental and Periodontal Research Center, Tabriz University of Medical Sciences, Tabriz, Iran]

7. Comparison of bacterial microleakage in open apex teeth obturated with two different obturation techniques. [Dental and Periodontal Research Center, Tabriz University of Medical Sciences, Tabriz, Iran]
8. Nasal carriage of *Staphylococcus aureus* in dental students Tabriz University of Medical Sciences and detection its methicillin-resistant isolated 2019. [Immunology Research Center, Tabriz University of Medical Sciences, Tabriz, Iran, Registered in the system of researchers]
9. Frequency of blaPER-1 in clinical isolates of *Acinetobacter baumannii* and its association with quorum sensing (luxI, luxR), biofilm production (pgaB, bap) and virulence factors (pld, epsA, ptk) in Tabriz and typing of isolates by RAPD-PCR. [Infectious and Tropical Diseases Research Centre, Tabriz University of Medical Sciences, Tabriz, Iran]
10. The association of phylogenetic typing of the *Klebsiella pneumoniae* isolates with antibiotic resistance in Tabriz during 2019. [Infectious and Tropical Diseases Research Centre, Tabriz University of Medical Sciences, Tabriz, Iran]
11. Evaluation of the antimicrobial property and flexural strength of the acrylic resin used in orthodontic removable appliances containing ZnO and TiO₂ nanoparticles encapsulated in zeolite. [Dental and Periodontal Research Center, Tabriz University of Medical Sciences, Tabriz, Iran]
12. Comparison of the antibacterial property of Calcium hydroxide, Curcumin and Aloe vera on 6-week-old *Enterococcus faecalis* biofilm as an intracanal medicament, an in vitro study. [Dental and Periodontal Research Center, Tabriz University of Medical Sciences, Tabriz, Iran]

13. Evaluation of antibacterial effect of *origanum vulgare* extract, *zingiber officinale* essential oil, 5/25% sodium hypochlorite and 2% chlorhexidine as root canal irrigants against 6 week old *Enterococcus faecalis* biofilms at the root of the human permanent teeth (An invitro study). [School of Dentistry, Tabriz University of Medical Sciences, Tabriz, Iran]
14. Study on multidrug-resistant (MDR) uropathogenic *Escherichia coli* (UPEC) isolates, presence of beta lactamase genes and screening of them for O25b/ST131 strain in Tabriz, 2020. [Infectious and Tropical Diseases Research Centre, Tabriz University of Medical Sciences, Tabriz, Iran]
15. The effect of two different sealers on bacterial microleakage of dental root canal using two different obturation techniques. [Dental and Periodontal Research Center, Tabriz University of Medical Sciences, Tabriz, Iran]
16. The effect of incorporation the Bioactive Glass on the properties of the Mineral Trioxide Aggregate: (Phase 2: setting time & antibacterial properties). [School of Dentistry, Tabriz University of Medical Sciences, Tabriz, Iran]
17. Production of technical knowledge of fabric layer containing copper nanoparticles and investigating its Virucidal and bactericidal properties for breath mask application. [Dental and Periodontal Research Center, Tabriz University of Medical Sciences, Tabriz, Iran]
18. Comparison of the antibacterial effect of Ozone gel, Nd:Yag laser and 2.5% Sodium hypochlorite on 6-week-old *Enterococcus faecalis* biofilm, an invitro study. [School of Dentistry, Tabriz University of Medical Sciences, Tabriz, Iran]

19. Determination and comparison of the antimicrobial property of Triphala herbal and chlorhexidine mouthwash and the combined mouthwash of Triphala and chlorhexidine on the amount of Salivary *Streptococcus mutans* in fixed orthodontic patients (Randomized clinical trial, Multi-central). [School of Dentistry, Tabriz University of Medical Sciences, Tabriz, Iran]
20. Comparison of bacterial microleakage of canals obturated with single cone technique and Endoseal MTA sealer and filled canals with Obtura technique and AH26 sealer. [Dental and Periodontal Research Center, Tabriz University of Medical Sciences, Tabriz, Iran]
21. Determination and comparison of the antimicrobial property of chlorhexidine mouthwash and mouthwash containing nanosilver fluoride and the combined mouthwash of nanosilver fluoride and chlorhexidine on the amount of Salivary *Streptococcus mutans* in patients undergoing orthodontic treatment (Randomized clinical trial). [School of Dentistry, Tabriz University of Medical Sciences, Tabriz, Iran]
22. Typing of Meticillin resistant *Staphylococcus aureus* clinical isolates in Northwest Iran by MLST method. [Immunology Research Center, Tabriz University of Medical Sciences, Tabriz, Iran]
23. Comparison of antibacterial effect of silver diamine fluoride, sodium hypochlorite and ozone gel on *Enterococcus faecalis* of deciduous molars' root canal. [School of Dentistry, Tabriz University of Medical Sciences, Tabriz, Iran]

Teaching Experiences

Doctoral, MS.c and BS.c levels in Tabriz University of Medical Sciences, Islamic Azad University of Tabriz and University College of Nabi Akram Tabriz (UCNA)

Research interests

1. Study of prevalence and mechanisms of antimicrobial resistance in pathogenic bacteria.
2. Diagnosis of pathogenic bacteria by molecular methods.
3. Evaluation of phenotypic and genotypic methods for diagnosis of anaerobic bacterial pathogens.

Cultural activities

The First rank in 5th Cultural and Art Festival, Tabriz, Iran, October 27, 2013.

Computer Skills

Seven skills of computer [International Computer Driving Licence; ICDL] and SPSS
