-------------	--

After earning my high school diploma from the Maragheh branch of the National Organization for Development of Exceptional Talents (Sampad) educational center, I continued my education in medicine at Urmia University of Medical Sciences. My ranks at the basic science and pre-internship exams were 5th and 2nd, respectively. So, I was qualified as ^{the first} percentile and could take the residency exam.

I was admitted to the ophthalmology field at Tabriz University of Medical Sciences with a rank of 72nd in the country. I graduated in 2024 and achieved the 9th rank in the Iranian Board of Ophthalmology exam.

I have started to fulfill my legal obligation as an ophthalmologist at Tabriz University of Medical Sciences.
