

Update: 2022

Tabriz University of Medical Sciences (TUOMS)

Dr. Mojgan Lotfi,

PhD in Nursing Education, Fellowship in Measurement and evaluation of medical sciences

Professor, Department of Medical Surgical Nursing and operating Room

Faculty of Nursing and Midwifery, Medical Education Research Center, Sina Hospital, Tabriz

Email Address: mojgan.lotfi@yahoo.com.

ORCID: <https://orcid.org/0000-0003-3298-6882>

Education

- Bachelor of Nursing (Operating Room Basic), Mashhad University of Medical Sciences 1993
- Master of Medical-Surgical Nursing, Tabriz University of Medical Sciences, 1998
- PhD in Nursing Education, Tabriz University of Medical Sciences, 2014

Executive positions

- Vice Chancellor for Education, Faculty of Nursing and Midwifery, Tabriz University of Medical Sciences, 2004-2007

- Head of Surgical Technology Laboratory, School of Nursing and Midwifery, 2008-...
- Head of the Medical Education Development Office of the School of Nursing and Midwifery, 2014-2015
- Vice Chancellor for Research, Technology and Postgraduate Studies, Tabriz School of Nursing and Midwifery, 2017 ...
- Member of the **Medical Emergency Board** of Examiners, Evaluation and Planning of the Iran Ministry of Health and Medical Education, 2006-2010
- Member of the **Operating Room Board** of Examiners, Evaluation and Planning of the Iran Ministry of Health and Medical Education, 2017-...
- Member of the Educational Council of Tabriz University of Medical Sciences, 2002-2004
- Member of the Educational Council of Tabriz University of Medical Sciences, 2017-2021
- Member of the Research and Technology Council of Tabriz University of Medical Sciences. 2018 - 2021
- Member of the research council of Sina Hospital of Tabriz University of Medical Sciences. 2019 ...
- Member of the Research Council of the Medical Education Research Center, Tabriz University of Medical Sciences. 2021 ...
- Member of the American Nursing Diagnosis Association (**NANDA**)

System planning and development

- Collaborate in the development of the Paramedic medical emergency curriculum, Tabriz School of Nursing and Midwifery .2003
- Development of Surgical Technology Laboratory - Tabriz School of Nursing and Midwifery .2008
- Collaborate in the development of the clinical skills center for infants and children - Tabriz School of Nursing and Midwifery – 2013
- Development of a family-centered training and follow-up nursing clinic for burn patients - Sina Hospital of Tabriz University of Medical Sciences.. 2011
- Development of the Burn Registry Program, Sina Hospital of Tabriz University of Medical Sciences. 2020

Published books

- Nursing care and safety considerations during electro surgery, Tabriz University of Medical Sciences Publications. 2006
- A Comprehensive guide for nursing in the operating room, Tabriz University of Medical Sciences Publications. 2002, 2005
- Nursing and burns wound care, Tabriz University of Medical Sciences Publications. 2005
- Nursing intervention in skin care, prevention and management of pressure ulcers. Publications of Tabriz University of Medical Sciences 2022
- Self-management guide at home for patients with chronic wounds. 2022.

Guidance and counseling for postgraduate dissertations and implementation of research proposal

1. Comparison of the effect of 70% ethyl alcohol and 2% chlorhexidine gluconate and 10% betadine in the prevention of phlebitis at the site of peripheral venous catheters of patients admitted to the internal wards of Tabriz teaching hospitals.
2. The status of triage and the factors affecting decision-making in the emergency departments of Tabriz.
3. The effect of preoperative nursing appointment on anxiety of patients undergoing surgery admitted to Imam Khomeini Hospital.
4. Comparison of the effect of dressing with silver sulfadiazine and nitrofurazone on burn wound infection in children.
5. Problems of clinical education from the perspective of nursing teachers and students of nursing and midwifery schools affiliated to Tabriz University of Medical Sciences.
6. A Survey of Patients' Perspectives on Factors Affecting the Satisfaction of Patients Referred to Emergency Departments of Tabriz University of Medical Sciences.
7. Cost-effectiveness of biological, synthetic and conventional dressings in nursing care of burn wounds of children admitted to the pediatric burn ward of Tabriz Sinai Medical Center.
8. Determining the relationship between pain intensity and emotional-behavioral and psychological responses of patients admitted to burn wards of Tabriz Sina Hospital.
9. Professional socialization of the students and nursing graduates of Tabriz School of Nursing and Midwifery.
10. The Impact of Integrated Simulation Training and Critical Thinking Strategies on Clinical Decision Making
11. Ethical atmosphere and its relationship with attitudes toward students' field of study and job satisfaction in operating room staff.
12. The effect of post-discharge education on the quality of life of burn patients.
13. The effect of early mobilization program on length of hospital stay, independent functioning and quality of life of burn patients.
14. Comparison of two methods of reporting through feedback with verbal discussion and feedback with video screening in nursing education.
15. The effect of hypnosis on pain and anxiety in burn patients of Imam Khomeini Medical Center in Uremia.
16. Evidence-Based Comparison of Biological Dressings with Common Methods in Burn Treatment: An Economic Evaluation Study 2017.
17. The effect of aloe Vera gel on healing, pain and itching of burn wounds of patients admitted to Sina Hospital, 2016
18. Cultural sensitivity and its relationship with the level of work interaction among nurses working in Tabriz educational and medical centers in 2015.
19. Development of hand burn dressing protocol and the effect of its implementation on burn outcomes of patients in comparison with the routine method in Sina Hospital in Tabriz in 2017
20. Determination of lethality indices in burn patients admitted to Sina Hospital during the last 5 years (2014-2010).

21. The effect of implementing the "Nurse Accompaniment" program on the health consequences of mothers of cesarean section candidates in Al-Zahra Educational and Medical Center, 2016
22. A Survey on the quality of life of burn survivors admitted to Sina Hospital in Tabriz during 2011-2013.
23. Developing the Roles of the Faculty Members Based in the Nursing Clinic: Participatory Research Action.
24. Nurses' knowledge, attitude and practice about bed sores in educational and medical centers in Tabriz.
25. Scenarios for home health care in the 20-year horizon : A future study
26. The effect of breathing techniques on the severity and catastrophic pain and tolerability of burn patients: a quasi-experimental study.
27. Comparison of the effect of conventional education and simulation using appendectomy simulation model on the knowledge and clinical skills of surgical technology students of Tabriz University of Medical Sciences.
28. The effect of using home visit program on quality of life, social support and pain of burn patients after discharge from hospital.
29. Sleep quality and related factors in burn patients admitted to Sina Hospital, Tabriz University of Medical Sciences.
30. Cultural competence of nursing teachers in medical universities of regional planning 2 Iran.
31. Development of a system for applying nursing diagnoses in the clinic: Action Research.
32. The effect of clinical learning guide (log book) on nursing students' learning.
33. Nursing students' perceptions of the clinical education environment in the surgical departments.
34. Comparison of perceptions of injustice in relationships, marital satisfaction and attachment between couples.
35. The process of returning burn patients to the community and presenting a model.
36. The effect of post-discharge education on the quality of life of burn patients.
37. Evaluation of cost effectiveness of silver Nanocrystals compared to silver in burn wounds.
38. Investigating the effect of using the modified SWITCH checklist on the quality of hand off during surgery.
39. Development of a virtual home care program for patients with chronic wounds: Action research
40. The quality of the family-oriented training and follow-up program for burn patients of Sina Medical Training Center, Tabriz-
41. Knowledge and attitude of nurses and nursing students about the management of diabetic foot care and their screening performance, Tabriz.
42. The relationship between the knowledge and performance of nurses in surgical departments regarding the process of caring for acute wounds caused by surgery and trauma in Tabriz medical education centers.
43. The effect of Khatami topical product on burn wound healing parameters in patients hospitalized in Sinai Medical Education Center - Doctoral Complementary Medicine dissertation.
44. Explaining the culture of pain management in burn patients: a focused ethnographic study - Doctoral nursing dissertation.
